

**CITY OF WICHITA  
CITY COUNCIL WORKSHOP  
TENTATIVE AGENDA  
City Hall Board Room  
March 22, 2005 9:30 am**

**Youth & Family Empowerment Zone**

**Estimated Time 30 Minutes**

The City owns approximately 16 acres of land near 21<sup>st</sup> Street North and Grove. This site was the former location for the Institute of Logopedics and was known as the Heartspring site. A Consortium, known as Partners for 21<sup>st</sup> Street Progress, approached the City regarding use of this property as a location for an expanded Boys and Girls Club to replace the existing facility located at 21<sup>st</sup> Street and Grove. The City Council will receive a presentation on the use of this land as a Family Empowerment Zone, which expands upon the original concept of utilization of the land for a new and expanded Boys and Girls Club and now includes providing space for many other community service providers.

**Swimming Pool and Spa Codes**

**Estimated Time 20 Minutes**

The Department of Environmental Health is proposing revision of the City's codes regulating public and semi-public swimming pools, spas and hot tubs, and other recreational water features. The updated code will incorporate the most recent industry standards, consider current public health recommendations, and address new types of water features such as interactive fountains.

**Budget Presentations – Infrastructure & Transportation**

**Estimated Time 3 Hours**

- Public Works
- Water & Sewer
- Airport
- Transit

**Executive Session during lunch**
